

[Adapting curriculum to bridge equity gaps towards an Inclusive curriculum](#) [1]

Organisation de coopération et de développement économiques. (2021). *Adapting curriculum to bridge equity gaps towards an Inclusive curriculum*. OCDE.

This report takes a pragmatic look at equality, equity and inclusion in curriculum. It examines how curriculum can be adapted to meet specific needs of diverse learners, particularly vulnerable students. It also features a range of strategies which countries use to design curriculum, so that no student will be left behind.

This report is one of six presenting the first-ever comparative analyses on curriculum, summarising existing literature, listing challenges and strategies countries reported, and suggesting lessons learned from unintended consequences countries experienced with their curriculum reforms.
