

[Agency Co-operation with the Pacific Indicators for Disability](#) [1]

The Pacific Indicators for Disability-Inclusive Education (Pacific-INDIE) materials have been developed in partnership by Monash University, CBM - Nossal Institute Partnership for Disability Inclusive Development, Pacific Disability Forum, and the Pacific Islands Forum Secretariat. The Pacific-INDIE are a resource to support Pacific Island countries in a process of developing disability - inclusive education. A set of guidelines have been prepared for administrators (e.g. Ministry or regional level), senior leaders and operational staff (such as teachers) to be used in collaboration with other relevant professionals, parents and community stakeholders such as Disabled Persons Organisations (DPOs) to measure progress towards implementing disability-inclusive education.
