

[Webinar: Universal Design for Inclusive Learning](#) [1]

10 Mai 2022 de 13 à 14 heures

This session will give an overview of Universal Design as it can be understood and implemented in education.

While Universal Design does not offer a 'one-size-fits-all' solution, it does present a model that aims to provide an educational experience that has considered the different educational backgrounds, learning preferences and abilities of a diverse learner population.
